

Seasonal Changes: Autumn and Winter

YEAR 1

Key Vocabulary

seasons

In the UK, there are four seasons each year. They are Spring, Summer, **Autumn** and **Winter**

autumn

In **autumn**, the temperature begins to get lower and it can be quite chilly and windy. It starts to get darker earlier in the day. Some animals get ready to hibernate and some types of trees lose their leaves.

Autumn

Winter

winter

Winter is the coldest season of the year. It can be very rainy and windy. It might even snow. Not many flowers are in bloom during winter and lots of trees have lost all their leaves. Some animals hibernate during **winter** and many are less active than in the warmer months.

weather

The **weather** includes the temperature outside, how windy it is and rainfall (How much it rains). We can also describe cloud, snow and sun.

daylight

Daylight is when it is light outside. The amount of **daylight** changes with each **season**.

The Four Seasons:

Autumn

September
October
November

Winter

December
January
February

Spring

March
April
May

Summer

June
July
August

Disciplinary Skills

Maths: Measures: To know how to use everyday language to talk about **time** to solve problems.

Classification: To know how to use simple features to compare objects, materials and living things and, with help, decide how to sort and group them.

Observation over time: To know how to make and record observations over time

Observing patterns: To know how to make and record patterns:

Researching using secondary sources: To know how to use simple secondary sources to find answers
